Have you ever come
across this situation?

Imagine going hiking & running into
this. I don't even know what my next
move would be

dexter

@DontAskDexter

What is the opposite of pspspsp

Or found yourself in
this circumstance?

Is this something you
have experienced?

PaFAFU

Perfect for hunting
and hiking

Ron

Age: 50

Education: 404

Hometown: Pawnee, Indiana

Family: Married 2nd time

Occupations: Public services

Likes: Camping, hunting, woodwork

Dislikes: Government / laws, vegetarian food

Goals:

- Popularize handcrafts, woodwork and other manly activities
- Spend quality time in nature with people with common interests

Frustrations:

- Inefficiency in government work
- People prefer virtual activities over offline ones
- Spending more time online the young ones are lacking beneficial skills, previously obtained in outdoor activities

Ron appears to be a middle age man with a relatively conservative mindset and lots of hidden talents. Despite the fact that he works as a civil servant of the public he never hesitates to spread his ideas on better public administration and life as a man in general. He thinks that tech is a harmful distraction and people should use it just as a tool to facilitate their offline activities.

What is PaFAFU?

FUNCTIONALITIES

HUNTERS

Hunters can see information on hunting seasons, and nearby game.

HIKERS

Hikers can see information about nearby hiking trails.

The background is a light beige color with several hand-drawn elements in a brownish-gold color. There are several dashed lines forming loops and curves. Some of these lines have arrows pointing in different directions, suggesting a flow or a process. A large, bold 'X' mark is drawn in the lower-left quadrant of the image.

Conclusions:

Don't be like this guy.

Be prepared.

Use PaFAFU.
